

公司介绍  
ABOUT US

ShengQing Materials

Shengqing Materials is a comprehensive company integrating production and trade, headquarters located in Guangzhou. We are committed to providing high-quality chemical raw materials to customers worldwide.

The products are widely used in agriculture, personal care, and home care industries. Leveraging advanced production technology and a stringent quality management system, we focus on supplying high-quality AS/SL Adjuvants, SC Adjuvants, defoamers, soil conditioners, and cost-effective agricultural surfactants.

Adjuvant Empowerment,  
Harvest with Confidence.

SHENGQING MATERIALS

Agrochemical  
BROCHURE

Guangzhou ShengQing Biotechnology Co.,Ltd.  
广州声清生物科技有限公司

## Defoamer

- **SQ-Agrosil 102** Suitable for transparent agricultural chemical formulations, strong defoaming ability.

## AS/SL Adjuvant

- **SQ-Agrosil 125** High-efficiency film-forming ability, improves the deposition pattern of pesticide particles after drying.
- **SQ-Agrosil 195** Plant-based, high permeability, rainwash-resistant.
- **SQ-Agrosil 216** Super strong spreading and wetting ability, fast absorption; Effective against various small insects.

## Soil Treatment

- **SQ-Agrosil 222** Improves water permeability of plant roots in saline-alkali soil.
- **SQ-Agrosil 255** Inhibits soil surface crusting, increases soil porosity.

## Others

- **SQ-OAB 35** Rainwash-resistant, effective wetting, cost-saving.
- **SQ-APG0810H70DK** Reduces surface tension.

## SC Adjuvant

- **SQ-Agrosil 500L1** Dispersant with emulsifying function.
- **SQ-Agrosil D505** High-efficiency film-forming ability, improves the deposition pattern of pesticide particles after drying.
- **SQ-Agrosil D520** Dispersing and viscosity reduction, suitable for low-melting, water-soluble, and high-difficulty formulations.
- **SQ-Agrosil D707** Super strong dispersion, improves the heat resistance of formulations, suitable for highly water-soluble formulations.
- **SQ-Agrosil D733** Super strong viscosity reduction / super strong dispersion, improves grinding efficiency.
- **SQ-Agrosil FD-Pro** Wetting and dispersing, anti-freeze-thaw.
